# About Me

**Briana Sky Riley** is an actress, singer, voice actor and model based in New York City. As a born and bred Brooklynite, Briana attended Poly Prep Country Day School, where she discovered her love of singing and theater. She went on to The Boston Conservatory at Berklee College of Music, graduating with a BFA in Musical Theater Performance, emphasis in Devised Theater. Briana is currently training at The Barrow Group, and has just wrapped up three films, a new musical recording, and two audio books (in which she had so much fun voicing vicious mythological beings). Briana loves period dramas, songwriting, antique shopping, her two Australian Shepherds and country music. On weekends she can be found with a lavender latte in hand, romanticizing her life.

### "For The Fallen" Short

"Working with Briana Sky Riley resulted in what was one of the smoothest and least stressful projects I've worked on in a while! As a perfectionist, I was initially concerned about the actors being able to pull off such an emotional driven scene. Her character was super complex with an insane backstory and emotions that made her a walking contradiction, but Briana far exceeded my expectations and gave my project exactly what it needed! I can't wait to work with her again!" - dir. Dariell Pujols

# Social Media

Not only does Briana have a knack for portraying Influencers on screen, but she also has dreams of being one in real life (or e-life). She can be found on Tik Tok making videos that span all her interests - Period Dramas, Cosplay, Musical Theater, Vintage Clothing, Dating and her two Australian Shepherds. Bree coined her brand as "cultivated chaos" - and throw some corsets in there for good measure! Pretty much everything she loves, she'll post about it!

## Highlights

Briana as "Princess Persica" in @elle.lexxa's music video. Briana dreams of being in the court of corset queens like Elle Lexxa and @queen\_astraea one day.
